Thimira Pathum

Undergraduate Bachelor of Information and Communication Technology

Nittambuwa, Sri Lanka | +94767950686 | info@thimiradev.me | http://www.linkedin.com/in/thimira-pathum-5676b8356 | github.com/ThimiraPathum | thimiradev.me

PROFESSIONAL SUMMARY

ICT undergraduate at the University of Colombo with hands-on experience developing AI-driven applications, building and evaluating machine learning models, and deploying full-stack solutions. Passionate about solving real-world problems through intelligent systems, software engineering, and automation. Seeking an internship opportunity to contribute to meaningful projects, collaborate with experienced engineering teams, and develop reliable, scalable solutions.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, TypeScript, PHP, SQL, Bash

AI & Machine Learning: NumPy, Pandas, Scikit-learn, XGBoost, PyTorch, Matplotlib, MLflow

Machine Learning Concepts: Supervised & Unsupervised Learning, Regression, Classification, Clustering, Neural Networks, Model Training & Evaluation

LLM & AI Applications: LangChain, LangGraph, Ollama, LLM Integration, Agentic AI

Software Development: FastAPI, Laravel, React, Node.js, REST APIs, JWT Authentication

Databases: PostgreSQL, MySQL, MongoDB, SQLite

DevOps & Cloud: Docker, GitHub Actions (CI/CD), Linux, Nginx, Microsoft Azure, AWS (EC2, S3)

Development Tools: Git, GitHub, Postman

EDUCATION

University of Colombo, Sri Lanka *Expected 2028*

Bachelor of Information and Communication Technology (Honours)

GPA: 3.24/ 4.0 | Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Computer Networks, Operating Systems

Institute of Software Engineering (IJSE), Sri Lanka 2026 - Present

Certified AI & ML Engineer (CAME) Programme

Focus: Machine Learning, Deep Learning, NLP & LLMs, MLOps, Model Deployment, and Cloud AI

Wp/Gm/Urapola Central College, Gampaha , Sri Lanka 2022/2023

G.C.E. Advanced Level — Technology Stream | Results: AAB

PROJECTS

CeylonQuant — AI-Powered Stock Market Intelligence Platform

Personal Project | Python, XGBoost, Scikit-learn, Pandas, NumPy, FastAPI, React

GitHub: https://github.com/ThimiraPathum/CSE-Dashboard

- Developed an end-to-end machine learning pipeline for the Colombo Stock Exchange, engineering 34 technical, liquidity, and market features from historical equity data.
- Trained an XGBoost ensemble using 213,961 historical observations, implementing chronological validation, probability calibration, and risk-based stock screening.
- Designed a reproducible backtesting and data-quality framework, achieving zero label-status mismatches across 33,717 validation records.
- Evaluated model generalization on an independent 2025 holdout dataset, identified performance limitations, and developed an interactive dashboard for stock analytics and experimental AI signals.

MarketMentor — AI-Powered Financial Analytics Dashboard

Tech Stack: React, Python, FastAPI, PostgreSQL, Docker, Groq API, LLaMA

GitHub: https://github.com/ThimiraPathum/Trading_site_Backend

- Developed a full-stack financial analytics dashboard for monitoring forex and commodity market data.
- Built REST APIs using Python and FastAPI for market data processing and application functionality.
- Integrated LLM-based analysis to generate automated insights from financial data.
- Implemented JWT-based authentication and API security.
- Containerized the application using Docker for consistent development and deployment.

GoviMart — Agricultural E-Commerce Platform

Team Project | Tech Stack: React, Node.js, MongoDB, REST APIs, Git

GitHub: https://github.com/ThimiraPathum/GoviMart_Project

- Collaborated in a 5-member team to develop a full-stack agricultural marketplace connecting farmers and resellers.
- Developed features for product management, user roles, orders, reviews, and real-time communication.
- Contributed to backend API development and database integration for core application functionality.
- Used Git-based collaboration and team development practices throughout the project.

Portfolio Website — Azure-Hosted Full-Stack Application

Tech Stack: Laravel, PHP, MySQL, Azure VM, Docker, Nginx, GitHub Actions, Linux

GitHub: https://github.com/ThimiraPathum/My-Portfolio

- Designed and developed a full-stack portfolio application with a Laravel backend and responsive frontend.
- Developed and deployed the application on an Azure VM using Linux and Nginx.
- Implemented a GitHub Actions CI/CD pipeline to automate application deployment and updates.
- Containerized application components using Docker to improve deployment consistency and portability.

CERTIFICATIONS & ACHIEVEMENTS

- **AWS Academy Cloud Foundations** — AWS Academy | Jan 2026 – Apr 2026
- **Red Hat Training: Getting Started with Linux Fundamentals (RH104) — Ver. 9.1** — Red Hat Academy | Mar 2026 – May 2026
- **Cyber Security & Ethical Hacking** — Nenasala / ICTA Sri Lanka | Dec 2025 – Mar 2026

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Chief Editor *2026*

Buddhist Society, Faculty of Technology, University of Colombo

- Coordinate and edit content for society publications and communications.
- Work with members to keep content clear, accurate, and engaging.

Community Member *2026*

Information Technology Student Excellence Community (INTSEC), Faculty of Technology, University of Colombo

- Take part in technical activities and knowledge-sharing sessions.
- Collaborate with fellow ICT students on learning and community initiatives.
